

**Position Summary**  
**Chief Executive Officer, Lucas County Improvement Corporation**  
**Toledo, Ohio**

---

**Lucas County Improvement Corporation** is a designated Community Improvement Corporation dedicated to developing the economic potential of 450,000 population Lucas County and region in NW Ohio by providing the best resources, planning, and expertise to industry and government. The mission of the LCIC is to drive responsible economic development through the cooperative efforts of business and local government to enhance the quality of life in the County. The LCIC is an operational partner with the Workforce Investment Board of Lucas County, the Lucas County Office of Economic Development and the Lucas County Workforce Development Agency and works in close alliance with the Lucas County Board of County Commissioners, the City of Toledo, other municipal entities within the County, Toledo-Lucas County Port Authority, the Regional Growth Partnership and the University of Toledo Science & Technology Corridor. More information on LCIC can be found at [www.lcicoh.com](http://www.lcicoh.com).

**Chief Executive Officer** role of LCIC is centered around retention and creation of jobs for all LCIC jurisdictions and acting as the primary governmental source of information and facilitation to and for businesses about retention and/or relocation in Lucas County. Working in conjunction with the Board, CEO will have a major role in influencing and recommending economic policy development, business retention and attraction, technology development, marketing and community development functions. This leader is involved with politically sensitive projects and major expansions along with high-level interaction with leaders of the public and private sectors as well as the university leaders in their increasingly important role of driving the regional economy. CEO reports to 27-member Board and supervises professional staff.

**Ideal candidate** is functioning as the top executive of an economic development focused organization such as a local, county or regional economic development organization, a private sector development company, municipality or a major utility. Experience with industrial and manufacturing industries is especially desirable. Alternative experience -level executive within an organization as noted above is also desirable. Must demonstrate working collaboratively with government, business, nonprofit leaders and Boards. Bachelors required; CEcD highly desirable.

**Outstanding opportunity** for an economic development, chamber of commerce, municipal leader or perhaps private sector executive to lead an organization committed to the economic development of an established County in Northwest Ohio. The LCIC has enjoyed 40 years in the community and has solid business, community and government relations. Over the years, the organization has built a solid foundation and infrastructure. However, the Chief Executive Officer

Chief Executive Officer will work with a dedicated staff and a supportive and engaged Board committed to the success of Lucas County and will have a significant impact in continuing to define the County and its impact on the region for years to come. Attractive compensation and benefits.
